Bentonville, AR 72712

RSVP

RSVP by May 1 via phone or email:
(501) 503-5300;
lisat@vermeermidsouth.com.

AERIAL LIFT & RESCUE TRAINING

Vermeer MidSouth is proud to be your partner in the arborist industry. We have partnered with the Arborist Safety Training Institute and Sherrill Tree to offer our customers an aerial lift and rescue training seminar. Earn 6.5 ISA or TCIA CEUs and learn about safety on the jobsite. Lunch will be provided.

ABOUT THE CLASS

When a tree worker is injured or incapacitated aloft, fellow crew members are usually the first to respond. A climbing or lift emergency could develop any time, and tree care professionals must know how to react. TCIA's Aerial Lift / Aerial Rescue Training Program helps protect workers and meet the aerial rescue training requirements mandated by ANSI Z133.1 and OSHA.

This program is designed to be used in combination with on-the-job training and practice, so that crews have the knowledge and skills needed to evaluate an emergency situation and potentially rescue an injured worker.

This workshop is being funded in part by the Arborist Safety Training Institute and by Sherrill Tree.
